About Me

I am a BSc-IT student passionate about web development, learning and building skills in the MERN stack and exploring cloud computing to grow as a full-stack developer. I enjoy creating real-world projects and have a strong foundation in JavaScript and React, while diving into backend technologies like Node.js, Express.js, and MongoDB. I focus on building projects with clean design, good performance, and easy-to-use interfaces

Technical Skills

- HTML & CSS
- JavaScript
- Node.js & Express.js
- MongoDB
- Microsoft Excel
- Git & Github

Education

- Class 10th**
